

The 1st catalogue of furniture and 3D objects that promotes French lifestyle

Le FRENCH DESIGN 3D CATALOGUE is geared to professionals from around the world who wish to (re)discover **the best French design creations in 3D**. It proposes **more than 500 pieces** from Le FRENCH DESIGN programs including the NO TASTE FOR BAD TASTE exhibition and Le **FRENCH DESIGN** Incubator.

From left to right: Ploum – Ligne Roset x Ronan & Erwan Bouroullec / Palais Royal – Fermob x Jean-Michel Wilmotte / Time Flies – Ymer&Malta x Margaux Lafond / Sonogonos – Galerie MICA x Pierre Charrié

Typical FRENCH DESIGN pieces are now available on the first complete home platform that lets each person visualize their home interiors and living areas in 3D. HomeByMe is an **online 3D interior design service** where users can be inspired to furnish and decorate their home. The service has been developed by the **Dassault Systèmes SE** group whose ambition is to make 3D available to the broadest possible public.

HomeByMe lets its users **imagine, create and visualize various decoration or layout configurations for their interiors** before making any buying or reorganizing decisions. Thanks to its simple, playful use, it helps each person imagine their style and personality as accurately as possible. Thus HomeByMe users can easily create the home of their dreams, choose furniture from top designer catalogues, flesh out the overall decoration and finally, project themselves immediately into their future home. They can also be inspired by **over 4 million projects already realized by the design community** and share their ideas with family, friends or home professionals.
