4. NEB in Ireland

4.1 NEB projects funded by the EU

Lighthouse Demonstrators

The first five lighthouses will implement the New European Bauhaus principles of sustainability, aesthetics and inclusiveness on the ground in 13 countries. They will transform neighbourhoods in cities, look into rural development and link projects from different countries. Press release: https://ec.europa.eu/commission/presscorner/detail/en/IP_22_2780

Name of the project	Description
NEBourhoods	NEBourhoods prepares Munich-Neuperlach (DE) for the future as mapped out by the European Green Deal when it comes to the built environment, circularity, mobility, energy, food, and health. The project will build on the area's strengths – a strong sense of community, vast green areas, large-scale housing, even if in need of renovation – and address its weaknesses – higher than average unemployment and lower than average education levels.
Bauhaus of the Seas Sails	With this project, cities close to water will be offered solutions to achieve climate neutrality. It will result in seven transformational demonstrators in different regions and aquatic ecosystems: in Portugal (estuary), Italy (lagoon and gulf), Sweden/Germany (strait / sea / river), and the Netherlands / Belgium (delta). The project aims at achieving a sustainable and inclusive transition, keeping the aesthetic at the centre and working closely together with the local communities.

4.2 NEB Prizes

To accelerate the green transition, contribute to the recovery and to ensure a better living together for all, we have to capitalise on the existing wealth of knowledge, experience and capacities as much as to call for new visions, new ideas and new solutions. The Prizes bring together those excellent examples and new ideas that could inspire the New European Bauhaus. The NEB Champions rewards existing completed examples and the NEB Rising Stars rewards concepts or ideas submitted by young talents aged 30 or less.
