Lighthouse Demonstrators

The first six lighthouses will implement the New European Bauhaus principles of sustainability, aesthetics and inclusiveness on the ground in 13 countries. They will transform neighbourhoods in cities, look into rural development and link projects from different countries. Press release: https://ec.europa.eu/commission/presscorner/detail/en/IP_22_2780

Name of the project	Description
NEBourhoods	NEBourhoods prepares Munich-Neuperlach (DE) for the future as mapped out by the European Green Deal when it comes to the built environment, circularity, mobility, energy, food, and health. The project will build on the area's strengths – a strong sense of community, vast green areas, large-scale housing, even if in need of renovation – and address its weaknesses – higher than average unemployment and lower than average education levels.
Bauhaus of the Seas Sails	With this project, cities close to water will be offered solutions to achieve climate neutrality. It will result in seven transformational demonstrators in different regions and aquatic ecosystems: in Portugal (estuary), Italy (lagoon and gulf), Sweden/Germany (strait / sea / river), and the Netherlands / Belgium (delta). The project aims at achieving a sustainable and inclusive transition, keeping the aesthetic at the centre and working closely together with the local communities.

ProdMeSe, Modular Refugee Settlement Project Ukraine, Poland	The settlement project, based on the outskirts of Lviv, will create new temporary homes for displaced people as a result of the war in Ukraine. Through a co-creation process, beginning with identifying needs, ideas will be explored and implemented, bringing in architects, environmental and construction experts. Homes will be created to match the needs of refugees, as well as a housing complex that serves both the settling community and those already in the city. 4.3 NEB Prizes

To accelerate the green transition, contribute to the recovery and to ensure a better living together for all, we have to capitalise on the existing wealth of knowledge, experience and capacities as much as to call for new visions, new ideas and new solutions. The Prizes bring together those excellent examples and new ideas that could inspire the New European Bauhaus. The NEB Champions rewards existing completed examples and the NEB Rising Stars rewards concepts or ideas submitted by young talents aged 30 or less.

4.4 NEB Lab

The NEB Lab is a co-creation space at the service of the New European Bauhaus community, for the delivery of beautiful, sustainable, and inclusive projects to improve our daily lives. The Lab is where the New European Bauhaus is implemented in concrete and tangible projects. It is about what we can achieve when we work together in a spirit of openness and trust. It focuses on connecting people, learning from each other and tapping into everyone's experience.

5.1 Satellite events

Title	Location	Organisation	Description	Date (start and end)
Innovate & Collaborate: Shaping the Future of Sustainable, Beautiful and Inclusive Campus Living Labs	Kraków	Jagiellonian University - Campus Living Lab	<p>The event "Innovate & Collaborate: Shaping the Future of Sustainable, Beautiful and Inclusive Campus Living Labs" held at Jagiellonian University in Krakow is focused on the future of organization of Campus Living Labs (CLL). It is set to bring together academics, policymakers, local stakeholders and students to discuss the future of development of living labs located in the area of campuses. The New European Bauhaus initiative, which aims to merge sustainability, aesthetics, and inclusivity in the design and transformation of living spaces, aligns seamlessly with the concept of CLL. Campus living labs are not only compatible with the NEB initiative but also serve as ideal incubators for its principles and goals. These labs provide a tangible and practical way to foster sustainability, aesthetics, and inclusivity in the design and transformation of living spaces, while also nurturing the next generation of innovators who will carry these ideals forward.</p> <p>Event objectives are: connecting Quadruple Helix stakeholders, empowering local communities, and fostering international collaboration. These will be achieved through organization of:</p> <p>1.INNOVATE: Open panel discussion with international experts, representatives of campus living labs from different European countries (hybrid).</p> <p>The invited experts represent Polish, Spanish (Universitat Autònoma de Barcelona) and Dutch (Utrecht University) campus living labs. In the panel discussion, invited experts and community representatives will share their perspectives on how the NEB values can be implemented in real-world projects of living labs located on campuses. Additionally, discussing specific case studies and ongoing initiatives can provide concrete examples of how the NEB can in future influence the design and sustainability landscape of campus living labs in Europe. The event will be open for local stakeholders. It will be streamed online. The results of the discussion will be included in the future strategy of Jagiellonian University Campus Living Lab.</p> <p>2.COLLABORATE: Hands-on workshop for local community (on site)</p>	19/04/2024 19/04/2024

			<p>The workshop explores the social and educational potential of campus green public spaces on the Jagiellonian University campus. This workshop, set against the backdrop of the recently created space of the "Green Triangle" and its surroundings, will delve into the co-design of friendly, beautiful and sustainable spaces while emphasizing the importance of nature-based solutions and protection of biodiversity in the context of climate change. The workshop will be a co-creation picnic with:</p> <ul style="list-style-type: none"> - workshop for all age groups, including children, to co-create and co-design future campuses using art-based techniques - workshop on segregation of waste - building a composter and discussing ecological solutions for urban gardening -sowing and planting native plant species
