3.1 NEB projects funded by the EU

New European Bauhaus Calls

Name of the project	Description	Type of NEB Call	Link
portance™ merinoTech Vest	The merinoTech is one of the most advanced merino jackets ever developed. Crafted with meticulous attention to detail, it seamlessly combines fashion with technology-driven design & comfort.	WORTH Partnership Projects II	Link
Biofuel Waste is Bliss	Reimagining the use of ashes from bioenergy waste streams and developing whole new formulations and materials.	WORTH Partnership Projects II	Link

3.2 NEB Prizes

To accelerate the green transition, contribute to the recovery and to ensure a better living together for all, we have to capitalise on the existing wealth of knowledge, experience and capacities as much

as to call for new visions, new ideas and new solutions. The Prizes bring together those excellent examples and new ideas that could inspire the New European Bauhaus. The NEB Champions rewards existing completed examples and the NEB Rising Stars rewards concepts or ideas submitted by young talents aged 30 or less.

3.3 NEB Lab

The NEB Lab is a co-creation space at the service of the New European Bauhaus community, for the delivery of beautiful, sustainable, and inclusive projects to improve our daily lives. The Lab is where the New European Bauhaus is implemented in concrete and tangible projects. It is about what we can achieve when we work together in a spirit of openness and trust. It focuses on connecting people, learning from each other and tapping into everyone's experience.

Name of the project	Participating EE entities	Excerpt	Link
Public infrastructure for Ukraine	<p>The Lithuanian Union of Architects</p> <p>The Central Project Management Agency (CPVA)</p> <p>Lithuanian Ministry of Economy and Innovation</p> <p>The Architects' Council of Europe (ACE)</p> <p>The Reconstruction and Infrastructure Development Agency of Ukraine</p> <p>"Ro3kvit"</p>	<p>The project aims to create a professional knowledge core (bringing together practitioners, communities, administrators, donors) to collect, analyse and share experiences and information on how to democratically, contextually, and with the involvement of Ukrainian and European practitioners, develop public infrastructure projects (buildings, complexes, public spaces) for Ukraine.</p>	
Future School for Ukraine	<p>The Central Project Management Agency (CPVA)</p> <p>The Reconstruction and Infrastructure Development Agency of Ukraine</p> <p>The Union of Lithuanian Architects</p>	<p>The project is an initiative of the Lithuanian Government to help Ukraine restore its destroyed education infrastructure. By implementing the program 'CoCreate Future of Ukraine,' a high-quality standard technical school project will be created. It will be adaptive to be built across Ukraine and meet the specifics of the locations, along with the needs of communities. The project aims not only to save time and reduce costs for construction but also to create the best and most innovative future school for Ukrainian children. The Development Cooperation and Humanitarian Aid Fund allocated 500 thousand euros for the project.</p>	

4. NEB Festival 2024

Additional information about the activities and speakers is available on the [NEB Festival website](#).

4.1 Satellite events

Title	Location	Organisation	Description	Date (start and end)
GreenMe5 - Green Innovation Camp	Vilnius	Vilnius City Municipality	The Green Innovation Camp event is a part of the EU LIFE program-funded GreenMe5 project. During the event City of Vilnius will be presenting its implementation progress for the GreenMe5 Pilot action where each of 5 cities participating in the Project will be implementing Pilot projects based on one of the 5 thematic areas of the Green City Accord. Vilnius' theme is the Air and Pilot project consists of selecting one of the city streets, preparing a list of recommended measures for air quality improvement and planning for testing it in the upcoming 3 years period, getting air quality baseline indicators, and then testing different measures for their effect and analyzing data aiming to use it for implementing a larger scale Air quality improvement projects in the future, also sharing the experience with other Project partner cities and getting the feedback. During the planned Green Innovation Camp event as a part of NEB festival, the main focus for the planned workshops and activities would be the integration of the key NEB principles into the implementation of the Pilot project and opening it up for participating local and international experts, the local community, other stakeholders and local municipality administration, local NEB community.	24/04/2024 25/04/2024
