New European Bauhaus Calls

Projects supported by dedicated NEB Calls

Name of the project	Description	Type of NEB Call	Link
CONNECT, Community for Timisoara	Working across Timisoara, this project will aim to integrate Ukrainian refugees, particularly women, into the community by raising awareness of the role foreign people have played in the development of the city. This will be explored through gatherings that take an artistic and social lens, using sustainable materials to connect art to history and to build bonds between communities.	New European Bauhaus Citizen Engagement Programme (EIT) 2022	/
Romania - UAT Tarlungeni Cultural and educational center in an old, unaesthetic and ruined building built during the communist period	The project will transform one old, unaesthetic and ruined building built during the communist's period into a cultural and educational center.	Call " Support to New European Bauhaus Local Initiatives " (technical assistance to small and medium-sized municipalities)	/
Romania - Resita Municipality Minda – reconversion of a former industrial site into a	Resita's dynamic urban regeneration envisions for 2030 a green and vibrant city, by treasuring the 250 years of metal industry inheritance. This is clearly	Call " Support to New European Bauhaus Local Initiatives " (technical	/

place for the community and for creative industries	illustrated by 'Minda' experience - redesigning a former industrial site into a living place for the community and a space for creatives.	assistance to small and medium-sized municipalities)	
Craft Cities: Alba Iulia	Alba Iulia is part of 60 Craft Cities cohort	Craft Creating Actionable Futures	craft-Factsheet.pdf (craft-cities.eu)
Lugoj for Kids, by Kids	<p>"Lugoj: For kids, by kids" improved the public space in the town of Lugoj, Romania, through an innovative "grassroots" approach by connecting pupils with the public administration. The main objectives of the "Lugoj – For kids, by kids" project were to identify, with the help of pupils, obstacles children face in cycling to school, using the relevant infrastructure, and co-create solutions. The secondary aim of the pupil engagement phase was to stimulate their participation and involvement in the decision-making processes of their school by forming a long-term working group to deal with school projects. The pupils and the municipality formed a powerful bond and connected through a shared vision, improving the public realm through Creation of a GIS StoryMap showcasing problematic areas of the cycling infrastructure in the town and proposed solutions.</p> <p>The project's main output is the visualised ArcGIS based Interactive and Story Maps, which offers the possibility to visualise in real-time the information and data collected (entered) by the students involved in the project.</p>	EIT Community New European Bauhaus initiative selected citizen engagement projects	https://eit.europa.eu/news-events/news/eit-community-new-european-bauhaus-initiative-selected-citizen-engagement-projects

3.2 NEB Prizes

To accelerate the green transition, contribute to the recovery and to ensure a better living together for all, we have to capitalise on the existing wealth of knowledge, experience and capacities as much as to call for new visions, new ideas and new solutions. The Prizes bring together those excellent examples and new ideas that could inspire the New European Bauhaus. The NEB Champions rewards existing completed examples and the NEB Rising Stars rewards concepts or ideas submitted by young talents aged 30 or less.

3.3 NEB Lab

The NEB Lab is a co-creation space at the service of the New European Bauhaus community, for the delivery of beautiful, sustainable, and inclusive projects to improve our daily lives. The Lab is where the New European Bauhaus is implemented in concrete and tangible projects. It is about what we can achieve when we work together in a spirit of openness and trust. It focuses on connecting people, learning from each other and tapping into everyone's experience.

NEB Lab projects with participating entities from Romania:

Name of the project	Participating RO entities	Description	Link
NEB on the Danube	Ideilagram	The NEB on the Danube is a think-and-do-tank acting as an enabler for the green transition in the Danube region through establishing a functional cooperation of public authorities, civil society, and the private, investment and financial sectors. It aims to improve capacities of cities and regions for triggering and implementing investments into more responsible land use practices, including revitalisation of degraded areas, as a basis for a new green and just economy. It will do so by establishing an ecosystem of public actors, civil society and the private, industry, financial and insurance sectors, as well as experts and practitioners to develop up-to date and financially viable solutions for quality future living and by developing new business and financial models for green investment to fund the green and just transformation. The project will develop and test proposed solutions on pilot sites along the Danube River.	Link
European Triennial of Modernism	ARCEN Zeppelin magazine / SG STUDIO Second District Hall of Bucharest	The ETOM-NEB-Lab is a co-creation lab on trans-European Modernism to evolve and realise trans-national cooperation, best-practice, research, and capacity building. The Lab builds for a circular ecosystem on a three-year rhythm to bear and sustain plural transdisciplinary collaboration projects and to establish a decentralised and recurring EUROPEAN TRIENNIAL OF MODERNISM (ETOM) festival.
