NEW EUROPEAN BAUHAUS CONFERENCE

#NewEuropeanBauhaus

Carlos Teixeira

Carlos Teixeira is the Charles L. Owen Professor in Design at IIT Institute of Design (ID), where he teaches graduate courses. As director of ID's PhD program, he advises doctoral students on the strategic use of design capabilities in complex spaces of innovation. He is also faculty director of the Action Lab, which addresses specific industry challenges with a custom consortium, applies design solutions, and disseminates findings.

As founder of ORGE Innovation Consulting, he advises global leaders on how to innovate through design capabilities and strategies.

Carlos's research interests include design strategy, open innovation, and sustainable solutions. The central question of his current research is: "How can design affect the lives and wellbeing of people and communities by leveraging the interconnectivity of markets, technology, environment, finance, and social networks?"

Carlos received a doctorate in design from ID in 2002. Previous to his PhD, he received a master's and bachelor's degree in design from Pontifícia Universidade Católica in Rio de Janeiro, Brazil.
