NEW EUROPEAN BAUHAUS CONFERENCE

#NewEuropeanBauhaus

## Filipe Boni

Founder UGREEN, Architect, LEED AP BD+C

Filipe's mission is to accelerate the world's transition to sustainable construction. He uses education and green building consultancies as the primary strategy of this green transformation.

Being an architect with experience in developing more than 30 buildings across the south of Brazil and founder of UGREEN since 2015, he and the team educate the community worldwide with sustainable strategies in all its extension and importance.

More than only helping people develop better projects, we are here to plant a lasting seed. This way, students and professionals can grow their careers with a sustainable mind-set and make the world a better place through their leaderships.
